ILLUMINAZIONE D'ARTE

ATELIER

Dal 1963 il nostro obbiettivo è e resterà anche in futuro quello di fare di ogni singolo oggetto, pensato progettato e realizzato un veicolo appropriato ed emozionante per comunicare idee ed espressioni di vita quotidiana. Senza trascurare tuttavia la funzionalità, fattore che comunque rimane per illuminazione d'arte di primaria importanza.

Our company is born in 1963 from the real passion for wrought iron with the aim to create each single item as an element transmitting ideas and emotions of everydays live. We still maintain our purposes without neglecting the functionality as an element of primary importance for the "art illumination".

LINEA BAROCCO

Design: Maurizio Arena, Mauro Vegliante

Dopo anni di minimalismo, dove la tendenza al decoro e alla lavorazione artigianale è stata abbandonata, illuminazione d'arte propone una rilettura affascinante e contemporanea dell'antica tradizione artigianale fiorentina (il famoso intaglio fiorentino). In questa serie di lampade in legno e cristallo, si legge la storia dell'azienda, reinterpretata attraverso la ricerca di forme passate e colori di tendenza.

After years of minimalism, renouncing the trend for decoration and handcraft, the art illumination proposes a fashinating and contemporary "new discover" of the antique florentine handcraft tradition (the famous florentine carved wood). This range of chandeliers realized in wood and crystal reflects the history of our company, reinterpreted through the research of passed forms and trendy colours.

LINEA IRENE

Design: Maurizio Arena

Eclettica e vivace dalla forma armoniosa e dai colori intensi, la linea IRENE è una rivisitazione originale e contemporanea dello stile MARIA TERESA.
L'impatto visivo della forma sferica, crea l'illusione del movimento, esaltandone l'eleganza.
La particolarità del design rende questa lampada disponibile a diverse misure e colorazioni.

This range of eclectic and bright chandeliers with very harmonious form is to be considered as a contemporary original revisit of the MARIA TERESA style. The visual impact of the sferical chandelier creates an illusion of movement exalting its elegance. The particular design permits the realization in various sizes and colouring.
